

DRAFT OF LETTER TO BE SENT TO HIGH SCHOOL PRINCIPALS AND
COLLEGE PRESIDENTS

NAME & ADDRESS INFO

Dear XXXXXXXXXX,

I would like to acquaint your students with some facets of pursuing a career path of becoming an expert in the tax field. When the subject of income taxes or the Internal Revenue Service comes up most people react in a negative manner and complain about the complexities. Tax professionals can provide a real service to others by resolving the complexities of the tax code and intervening on the taxpayer's behalf when the Internal Revenue Service has contacted them.

The contents of this packet provide material which will help career guidance counselors evaluate career options for students who may be interested in the tax field. This material will provide information regarding:

- An overview of the characteristics of working as a tax professional which could attract students to this career.
- Opportunities to obtain additional information from professional organizations.
- Scholarship opportunities for professional training.

Please forward this material to the head of the counseling department at your school. Thank you for your assistance.

Sincerely,

Michael Barrick, EA
Member, EBAA Board of Directors
